EOC Update: Kaleden Irrigation District

---

The Kaleden Irrigation District is having a temporary issue with the supply of water to the community due to a malfunctioning control valve in the main pump station.

Residents of upper Kaleden may be without water for a period of time, emergency personnel are on site.

The District is asking residents to not irrigate any landscaping or agricultural properties and to conserve as much water as possible in their residences.

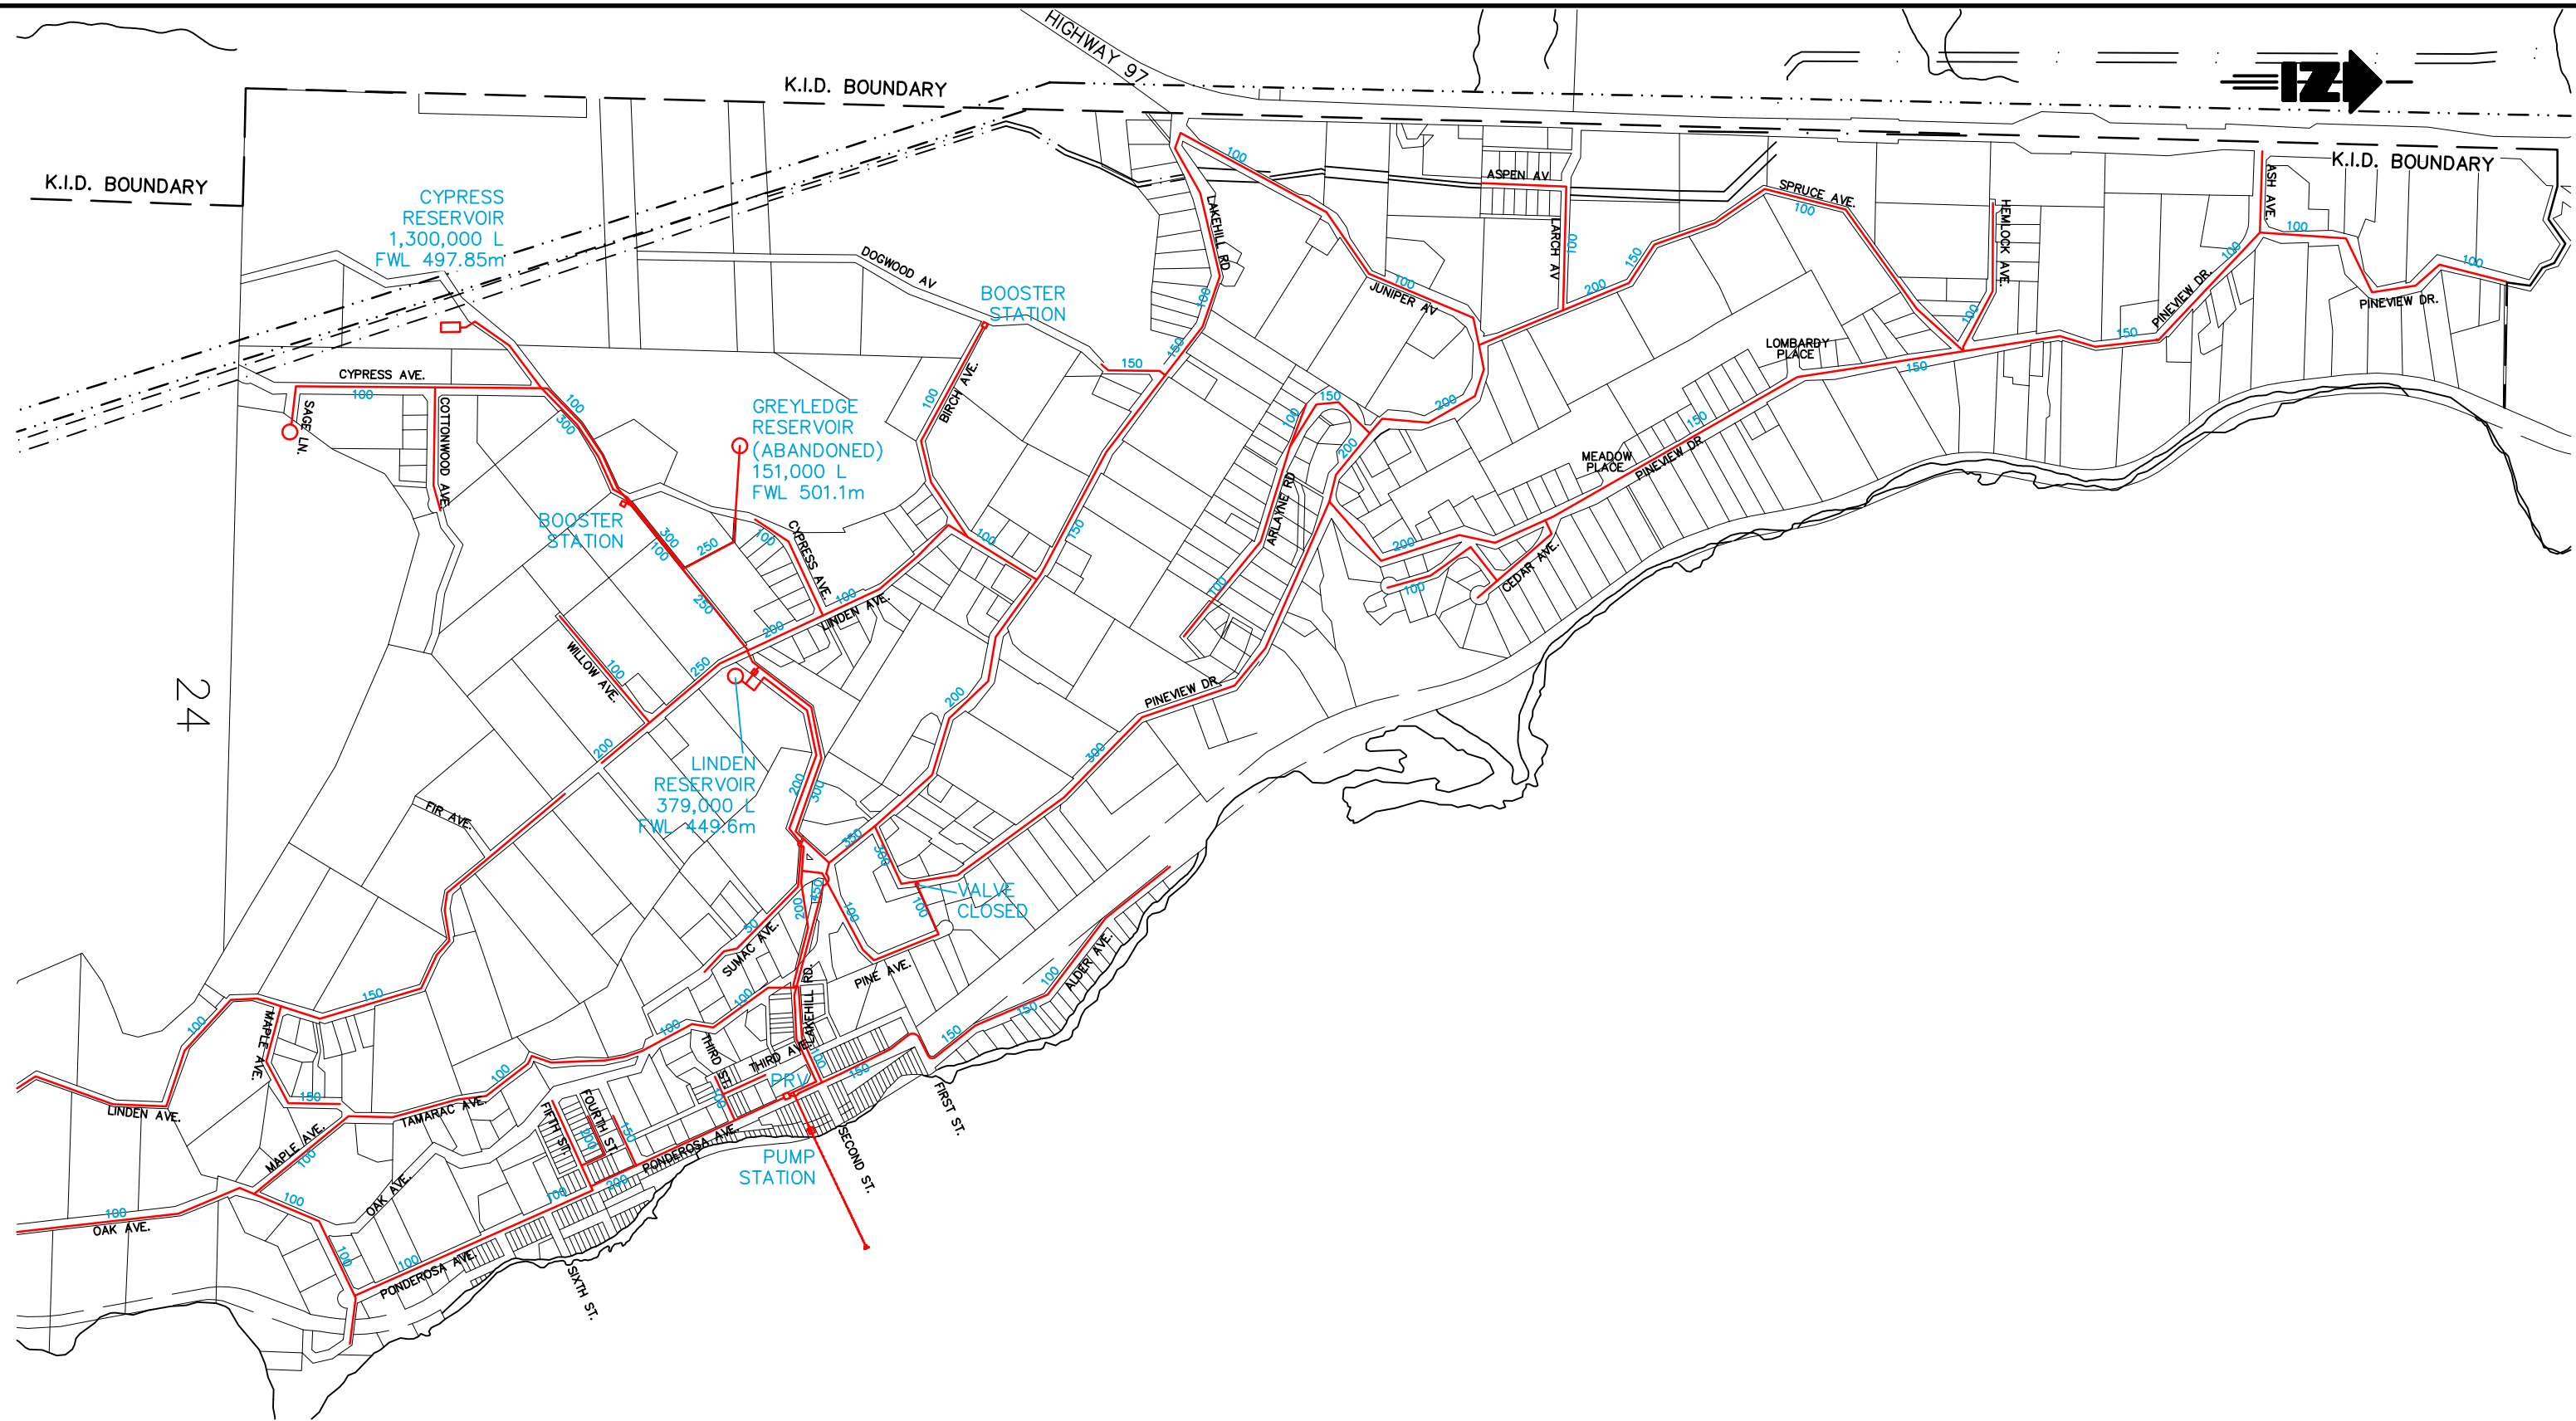

The reservoir is at 70% capacity and is not expected to drop to low levels if residents conserve their water use.

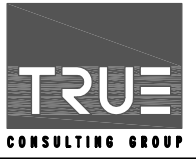

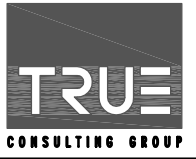

For more information, please visit <http://www.kaledenirrigation.org/>

A handwritten signature in black ink that reads "Karla Kozakevich".
